## MF Eco machine Certification System Registry

Registered: Sep 13, 2012 Revised:June 2, 2015 Revised:June 5, 2018

The vised. Julie 3, 2010						
Certification number		MF-B015		Product scope MYSPOT		
Registered company		Koyo Giken Inc.		Certified product	High Speed Welders Series NK-08-KGwc, NK-21HE(V)-KGwc, NK-71HE-KGwc	
Production year/month of criteria-base product		Mar, 2012		Criteria-base product	NK-08, NK-21HE(V), NK-71HE	
Requirements & environment factors		Evaluation item	Criteria	Evaluation results and/or remarks		
(1) E	ssential reqirements			NK-08-KGwc vs NK-08	NK-21HE(V)-KGwc vs NK-21HE(V)	NK-71HE-KGwc vs NK-71HE
Enerç savir		Reduction ratio	15% or more reduction	36%	26%	32%
				Based on JFMA Criteria		
(2) Selective requirements				NK-08-KGwc vs NK-08	NK-21HE(V)-KGwc vs NK-21HE(V)	NK-71HE-KGwc vs NK-71HE
Ener		Loaded electric power consumption	15% or more reduction	44%	32%	39%
savi				Based on JFMA Criteria		
Resources Saving Operating oil		Amount of use	10% or more reduction	X		
Environment Conservation Vibration & no		Loaded noise	3 dB or more lowering	X		
Minimum selective requirements		3 items or more		3 items		
(3) Recommeded requirements		Names of equipped devices/functions	Summary of effects on environmental burden reduction			
Environment factor	Energy saving, durability, long life,	Timesaving	Reduction in sander finishing due to limited welding distortion			
	display/management of environment info., vibration/noise, emission (atmosphere, soil)	Timesaving	Reduction of burning removal matrial due to limited welding burn			
		EZ setting	Defect ratio reduction with welding parameter control system			
		Dress factor control	Controlled chip dress execution timing for welding conditions			
		Welding navigation	Guiding functions to set appropriate welding conditions
